

Ed Chin

Ed has a Doctor of Pharmacy and completed the Nuclear Pharmacy Certification Program at The Ohio State University and Master of Business Administration from Western Governor's University. He is now working as a nuclear pharmacist with Cardinal Health. Ed lives in Columbus, OH, and spends his time serving on various local and national boards, singing with Harmony Project, practicing yoga, and traveling abroad to immerse himself in different cultures.

Ed joined ANN's Board of Directors in 2020. Attending the ANN conference allowed him to create new friendships, meet other individuals with nystagmus, and learn "life hacks" that help him to be successful in his daily routine. Despite his nystagmus, Ed played the violin and piano through college, completed a marathon, SkyJump from the Stratosphere, has gone skydiving, and various other outdoor adventures.
